Modernization of existing power plants

3128. SHRI N. R. GOVINDARAJAR: Will the Minister of POWER be pleased to state:

(a) whether Government propose to renovate/modernize the existing power plants in the country;

(b) if so, the details of the power projects/plants proposed to be modernized during the Tenth Five Year Plan, State-wise; and

(c) the extent to which power generation capacity of each project/plant is likely to be increased after modernization along with the expenditure involved?

THE MINISTER OF POWER (SHRI SUSHIL KUMAR SHINDE): (a) Yes, Sir,

(b) and (c) Government of India has identified 106 old thermal units having capacity of 10413 MW for Life Extension (LE) works during the Tenth Plan at an estimated cost of Rs. 9200.00 Crores. After implementation of the LE Scheme, the economical life of the units would get extended by another 15—20 years and the generating capacity would increase to 10747 MW besides overall improvement in the performance of the units. In addition, 57 thermal units having capacity of 14270 MW, which are comparatively new units and are performing well, have also been identifed for Renovation & Modernization (R&M) works to sustain their perfommance at an estimated cost of Rs. 977.00 Crores.

Government of India have also identified a programme to renovate 62 exiting hydroelectric power projects having installed capacity of 9977.5 MW for implementation during the Tenth Plan at an estimated cost of Rs. 2927.062 crores. After implementation of the Programme, a benefit in the form of 1516.31 MW would be accrued.

The State-wise details of the units identified for R&M & LE of Thermal units and Renovation of Hydro Power Projects for implementation during the Tenth Plan are annexed as Statement.

Statement

State-wise details of units identified for R and M and LE during the Tenth Plan

(a) Thermal Units identified for life extension during Tenth Plan

Setting up of Ultra Mega Power Projects

3129. SHRIMATI SYEDA ANWARA TAIMUR: Will the Minister of POWER be pleased to state:

(a) whether it is a fact that the Centre has planned to invite global tenders to develop four Ultra Mega Power Projects to produce 5,000 MW electricity;

(b) if so, the details thereof;

(c) the States and places selected for such Ultra Mega Power projects; and

(d) whether the Assam has been selected for these projects because of its high potenital to produce power?

THE MINISTER OF POWER (SHRI SUSHIL KUMAR SHINDE): (a) to (c) The Government has taken an initiative for facilitating the development of a few Ultra Mega Power Projects of about 4,000 MW capacity each under tariff based competitive bidding route in the sites to be located in following places:

(A) Sasan in Madhya Pradesh.

(B) Mundra in Gujarat.

(C) Akaltara in Chhattisgarh.
